

Phase 2 re-opening of the shop procedures

Everyone will wear a mask while in the shop, whether you are operating machinery or not. There will be multiple spray bottles of disinfectant located throughout the shop. When you finish using something, spray it and your hands.

If you are running a fever or feeling out of good health, stay home.

Bring small bills to pay for your shop time or write a check. The Supervisor will handle the funds then spray his hands or gloves.

Keep your items that you are working on in a tight group. There will only be room at the table for 8 users so do not spread your work out.

Here is the schedule of Shop Supervisors on duty when we re-open. If this changes, we will send out a new notice:

Monday: shop closed but we will have various classes: Beading, Wire Wrapping, Silver Smithing

Tuesday: 10am to 3pm Lloyd Chuyette
